Borislav Godumov

Front - End Developer

As a newcomer to the field of Web Development, I have invested significant time in studying and mastering the core concepts of **JavaScript**. I have also gained experience in popular frameworks like Express.js and React, along with the widely used NoSQL database MongoDB.

- **Links**: Demo / Source Code

EDUCATION

JavaScript Fullstack Developer
SoftUni Software University

01/2022 - Present   *Sofia, Bulgaria*

What I have learned
- Full Stack Web Development with React.
- Building APIs with ExpressJS.
- JavaScript Advanced Techniques (building SPA with VanillaJS)
- NoSQL Databases (MongoDB).

EXPERIENCE

Community Moderator
SoftUni Discord Community

02/2022 - Present

Community members can ask questions, share resources, and engage in discussions related to software development and related fields.

Achievements
- Successfully **organized a series of web development events** that attracted a significant number of participants and received positive feedback from attendees.
- **Led exam preparation sessions** that helped students feel more confident and well-prepared for their exams.
- **Managed the SoftUni Discord community**, resolving conflicts, and promoting a positive and inclusive environment.

TECHNICAL SKILLS

Programming Languages
JavaScript, TypeScript

Frameworks
React, Express.js

Databases
MongoDB / Mongoose ODM

Tools
Git, Visual Studio Code, Postman, npm

SOFT SKILLS

Communication

Teamwork & Collaboration

Adaptability & Flexibility

Time Management

Problem Solving

LANGUAGES

English
Full Professional Proficiency

Spanish
Full Professional Proficiency

INTERESTS

Reading Books

Playing Basketball & Football
